Re: Notice of Intention to Commence Small Mining Operations, Split Rock/Miller Cove,
S/027/056, Millard County, Utah

Dear Mr. Cox:

Thank you for forwarding the Notice of Intention to Commence Small Mining Operations for Marion K. Nielson's, Split Rock/Miller Cove Project, located in Section 12, T19S, R14W, Millard County, Utah. Your agency's designated number for this project is UTU-070693..

We formally had this project categorized as an Exploration project, file number E/027/041. Since this project appears to be ongoing and mining-related activities are proposed, we have recategorized it as a small mining project. In doing so, this will alleviate the necessity of the operator submitting a new notice to us each year. However, an annual report will need to be submitted to this Division before January 31st of each year. We will forward an annual report form to the operator before the close of the 1994 year. The exploration file will be closed out.

This letter is to inform you that the Division has evaluated the above mentioned Notice of Intent for completeness. The Notice meets the requirements of Rule R647-3 of the 1988 Division of Oil, Gas and Mining Minerals Rules, and Title 40-8, et seq., of the Utah Mined Land Reclamation Act of 1975.

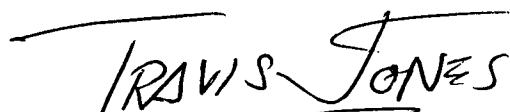

It is understood that your office, acting as "Lead Agency" will notify the operator accordingly.

Thank you for your cooperation. If you receive further information or amendments for this operation, please notify us so we will be able to update our files. Please reference our designated file number S/027/056 when forwarding additional information on this project to us.

Sincerely,

A handwritten signature in black ink that reads "TRAVIS JONES". The signature is written in a cursive style with a horizontal line above the first name and a flourish at the end of the last name.

Travis W. Jones
Reclamation Hydrologist
